INSTRUCTIONS

SAN FRANCISCO
PUBLIC LIBRARY

Look up *Street Number Desired* in *Alphabetical List of Streets* and take note of *Street Car Lines* designated as being nearest to same; then refer to *Official List of Street Car Routes* (follows list of streets) where information regarding *routes*, *direction*, and *transfer points* will be found.

If unable to take line going *directly* nearest the number desired, then take the line nearest to which you are situated, *transfering* to line passing number desired, *viz:* To reach 2603 Sacramento St. from Mission and 16th Sts. By looking at *list of streets* you will see that Sacramento St. cars pass the number desired, but on referring to *list of street car routes* you will find that same do not go near Mission and 16th Sts. As Fillmore and 16th St. cars do pass the point from which you wish to start, look for route of that line and you will find that transfers are issued to Sacramento St. cars, enabling you to go directly to the number desired.
